Privacy Policy for Orca

Last updated: February 23, 2026

1. What We Collect

When you use Orca, we collect the following information:

- Account information: Your name and email address when you create an account.
- Voice recordings: Processed on your device to extract text. Raw audio is not stored or transmitted to our servers.
- Screenshots: Stored locally and synced to your private cloud storage if you enable cloud sync.
- Memory content: The text of your memories, associated categories (Echos), dates, and tags.
- Usage data: Anonymous analytics about how you use the app (features used, session length) to improve Orca. We use Mixpanel for this. No memory content is included in analytics.

2. How We Use Your Data

- To provide the Orca service: storing, organizing, and reminding you of your memories.
- To improve the app: understanding which features are used and where people get stuck.
- We never sell your personal data to third parties.
- We never use your memory content for advertising.
- We never share your memory content with other users unless you explicitly use a sharing feature (future).

3. Data Storage & Security

- Your memories are stored on your device using Apple's encrypted storage (SwiftData).
- If cloud sync is enabled, data is stored in Supabase (PostgreSQL) with encryption at rest (AES-256) and in transit (TLS 1.3).
- Row Level Security ensures only you can access your data — not even Orca employees can read your memories.
- Your account password is hashed using bcrypt and never stored in plain text.

4. Voice Processing

Orca uses Apple's on-device Speech Recognition framework. Your voice is processed entirely on your iPhone. Audio data is never sent to Orca's servers or any third party. Only the resulting text transcription is stored.

5. Your Rights

- Access: You can view all your data within the app at any time.
- Edit: You can modify any memory, Echo, or Ping at any time.
- Delete: You can delete individual memories or your entire account. Account deletion removes all data from our servers within 30 days.

6. Children's Privacy

Orca is not designed for children under 13. We do not knowingly collect personal information from children under 13.

7. Changes to This Policy

We may update this privacy policy from time to time. We will notify you of significant changes through the app or by email.

8. Contact
